CAPABILITIES STATEMENT

CAGE: 17RT4 | UEI: Q3KUSCX739W7 | Website: www.GreenBridgeFederalServices.com

Overview

GreenBridge Federal Services is an SDVOSB supported by 53+ years of combined construction and MEP experience, providing dependable, compliant, and cost-effective facility and infrastructure solutions for federal and institutional procurement needs.

Differentiators

- 53+ Years of Combined Mechanical and Capital Program Leadership
- Cooling as Electrical Capcity Recovery – Not Just HVAC Replacement
- Live Facility, Mission Critical Retrofit Execution
- Executive Level Governance & Risk Controlled Delivery
- Documented Capital Stewardship

Past Performance

GreenBridge Federal Services is led by mechanical and capital program executives with 53+ years of combined experience governing complex infrastructure, mechanical systems, and mission-critical facility modernization across public and private sectors.

- $750M+ capital programs governed
- Design-build and mechanical-intensive delivery across healthcare, manufacturing, education, and energy sectors
- Live-facility retrofit execution with phased, disruption-controlled implementation
- Concurrent program leadership up to $88M in high-risk environments
- Documented financial stewardship through structured cost control and value engineering

Core Competencies & Services

GreenBridge Federal Services delivers equipment supply and technical modernization services, coordinating licensed and bonded mechanical contractors as required to support full-system integration.

- Facility and mechanical infrastructure assessment and modernization consulting
- Chiller replacement and mechanical system retrofit (air-cooled and central plant systems)
- Cooling load modeling and electrical capacity impact analysis
- Mission-critical, live-facility phased retrofit execution
- Commissioning, performance validation, and operational optimization
- Lifecycle cost modeling, capital planning, and risk-governed project delivery

Products

- FrostPulse™ Cooling Platform – High-efficiency cooling and load management system engineered for air-cooled chiller replacement and energy demand reduction
- Complementary mechanical equipment and system components required for complete facility integration
- Partner-delivered HVAC, piping, and mechanical infrastructure systems as part of turnkey modernization solutions

NAICS Codes

236220 – Commercial and Institutional Building Construction
238220 - Plumbing, Heating and AC Contractors
238210 – Electrical Contractor and Wiring Installation
333415 – Air-Conditioning and Warm Air Heating Equipment Manufacturing
541330 – Engineering Services
541331 – Architectural Services
